**Please note that this price list may be abbreviated. For the most comprehensive view of the NASDAQ Stock Market fee and rebate schedule, please refer to the [Order Execution and Routing](#) section of the NASDAQ Rule Book.

All percentages below are Firm or MPID share volumes expressed as a percentage of consolidated U.S. average daily share volume. Note that on December 9th, 2013, NASDAQ began excluding odd-lot transactions from industry volume calculations. However, **odd lots are always included as part of any Firm or MPID's volume for purposes of tier calculations.**

Qualified Market Makers

NASDAQ rewards market makers who actively quote at the National Best Bid or Offer (NBBO) in a broad set of securities through the QMM program. A Member's primary MPID attains QMM status by meeting certain quoting requirements each month. By meeting affirmative standards, QMMs receive meaningful benefits to further encourage broad-based liquidity provision.

MPIDs must meet the following obligations to qualify as a QMM:

- Maintain a one- or two-sided quote, of at least one round lot at the NBBO in an average of 1,000 securities for at least 25% of market hours each month.
- Be in compliance with NASDAQ's Excessive Messaging Policy during the month. Firms must ensure that their weighted order to trade ratio does not exceed a certain threshold, outlined in detail in the Excessive Messaging Policy section below.
- Be a Registered Nasdaq Market Maker
- Be the Member's primary MPID

QMM rebate incentives for achieving the QMM criteria are as follows: A rebate per share executed (as defined in the below table) for all displayed orders (other than Designated Retail Orders) in securities priced at \$1 or more per share that provide liquidity and entered through a QMM MPID and were for securities listed on NYSE ("Tape A QMM Incentive") or securities listed on exchanges other than Nasdaq and NYSE ("Tape B QMM Incentive"). Such rebate for executions via the QMM MPID will be in addition to any rebate payable under Rule 7018 (existing add displayed liquidity rebates):

QMM Tiers		Tape A QMM Incentive	Tape B QMM Incentive
Tier 1	Member adds liquidity (displayed, non-displayed, and midpoint) provided in all securities through one or more of its Nasdaq Market Center		

	MPIDs that represents 0.70% up to and including 0.90% of Consolidated Volume during the month.	\$0.0001	\$0.0001
Tier 2	Member adds liquidity (displayed, non-displayed, and midpoint) provided in all securities through one or more of its Nasdaq Market Center MPIDs above 0.90% of Consolidated Volume during the month.	\$0.0002	\$0.0002

However, if a QMM also participates in the ISP, Nasdaq will pay the greater of any applicable credit under the ISP or the above listed additional rebate, but not both. The rebate does not apply to Select Symbol securities listed under Rule 7018(a)(4).

In addition to the above rebate incentives, QMM's that execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.80% or more of Consolidated Volume during the month will be assessed a discounted remove fee of \$0.00295 in Tapes A and B for shares executed via its QMM MPID. The discount does not apply to Select Symbol securities listed under Rule 7018(a)(4).

In order to determine how much time an MPID quotes a security at the NBBO for purposes of determining an MPID's QMM eligibility, NASDAQ will take the average of the time spent at the bid and offer between 9:30 a.m. and 4:00 p.m., Eastern Time (ET) for each trading day. The monthly average will be calculated for each security by summing the security's daily averages then dividing the resulting sum by the total number of trading days in the month.

Designated Liquidity Provider Program

Designated Liquidity Providers (DLPs) are market makers who have been selected to promote an active and liquid trading market in Exchange Traded Funds (ETFs) by maintaining higher standards of liquidity in qualified NASDAQ-listed ETFs.

DLPs who maintain a one- or two-sided quote, of at least one round lot, at the NBBO in their qualified ETF for at least 15% of market hours each month will receive the enhanced rebate of \$0.0040 per executed share of liquidity provided in that qualified security.

Shares receiving an enhanced rebate through the DLP program are not eligible to receive additional rebates through other incentive programs (including, for example, ISP or NBBO setter pricing).

For more information on this program, please refer to the [ETF Page](#) on the NASDAQ OMX Trader® website.

Excessive Messaging Policy

The NASDAQ Stock Market (NASDAQ), NASDAQ OMX BX (BX) and NASDAQ OMX PSX (PSX) have introduced an Excessive Messaging Policy that encourages active quoting near the NBBO while discouraging excessive order activity away from the inside.

Member firms that exceed a "Weighted Order-to-Trade Ratio" of 100:1 pay a fee on the orders that cause the firm to exceed the threshold. The weighting factors are as follows:

Order's Price vs NBBO upon entry	Weighting factor
0% - 0.20% away	0x
0.20% - 0.99% away	1x
1% - 1.99% away	2x
2% or more away	3x

Firms that exceed the Weighted Order-to-Trade Ratio threshold of 1,000:1 will pay a \$0.01 penalty on each order that caused the firm to surpass the threshold.

Firms that exceed the Weighted Order-to-Trade Ratio threshold of 100:1 but less than 1,000:1 will pay a \$0.005 per order penalty on all orders that caused the firm's ratio to exceed 100:1.

Example

- ABCD sends the following displayed, liquidity-providing orders:
 - 1,000,000 orders at the NBBO (weighting factor: 0x), of which 7,000 trade
 - 500,000 orders 1.5% away from the NBBO (weighting factor: 2x), of which 1,000 trade
- ABCD's Weighted Order-to-Trade Ratio is 125:1
 - Weighted Order Count: 1,000,000 (1,000,000 x 0 + 500,000 x 2)
 - Orders executed (i.e., Trades): 8,000
 - Therefore, the ratio is 125 = (1,000,000 weighted orders / 8,000 orders executed)
- Based on 8,000 orders executed, ABCD needed a weighted order count of 800,000 orders to meet the 100:1 threshold
 - Therefore, the Excessive Order quantity is: 200,000 = (1,000,000 - 800,000)
 - ABCD will incur a penalty of \$0.005 on their 200,000 excessive orders.

Notes

Only displayed, liquidity-providing orders received during regular market hours are included in the Weighted Order-to-Trade Ratio calculation.

Non-displayed orders, Immediate-or-Cancel (IOC) orders and Auction orders are excluded from the calculation

Orders sent by Registered Market Makers in their registered securities will not be included in the calculation.

Firms sending less than 100,000 weighted orders daily will not incur penalties.

Excessive Messaging Policy for DOTI and DOTZ

NASDAQ assesses an excessive message fee for member firms that use the DOTI or DOTZ strategies and have an order to execution ratio of greater than 300 to 1. This fee applies to firms using NASDAQ's router to engage in high frequency trading on the NYSE and who send orders not eligible to post on the NASDAQ book.

A fee of \$0.01 per order applies in the following circumstances:

- Only orders sent via the DOTI or DOTZ strategies
- Only when the order to execution ratio for an MPID's usage of DOTI/DOTZ greater than 300 orders per 1 execution.
- Only to firms that send an average of more than 10,000 DOTI/DOTZ orders per day
- Only to the number of orders that cause the firm to exceed the 300 to 1 ratio

Note:

A partial execution counts as an execution toward the ratio calculation. In addition, cancel messages are free and are excluded from the ratio calculation. Orders for less than one round lot and any resulting execution are also excluded.

Example:

Firm A sends 200,000 DOTI/DOTZ orders and 800 of the orders result in executions. No fee is applied because the order to execution ratio is 250:1.

Firm B sends 200,000 DOTI/DOTZ orders and 100 of the orders result in executions. The execution ratio is 2000:1 and the firm will be charged \$1,700 for exceeding the ratio by 170,000 messages.

[Return to Top](#)**NASDAQ Rule 11890 Fees****Complaints:**

NASDAQ will charge fees for NASDAQ members who file more than two unsuccessful clearly erroneous complaints during a calendar month.

- Each security listed in a filing is treated as a separate complaint for purposes of this fee.
- An unsuccessful complaint is one in which NASDAQ does not break any of the trades included in that complaint.

Following the second unsuccessful complaint, the member shall be assessed a fee of \$250 for each additional unsuccessful complaint. For complete information please refer to [Regulatory Alert #2008-005](#).

Appeals:

There is a **\$500** fee for unsuccessful appeals of Clearly Erroneous Rule 11890 adjudications. The party initiating the appeal shall be assessed the \$500 fee if the Market Operations Review Committee (MORC) upholds the decision of the NASDAQ official who made the initial determination. The fee will be reflected in the monthly invoice.

Sales Fees to Fund Section 31 Obligations

In order to fund Section 31 exchange obligations, we assess a Sales Fee to Clearing Firms relative to the covered sale activity of their executing brokers on NASDAQ.

The Sales Fee will be assessed no later than the 10th calendar day of the following month and facilitated through a direct debit against the Clearing Firm's settlement account at the National Securities Clearing Corporation (NSCC).

NASDAQ and BX sales fee invoicing is performed separately. There are discreet invoices and support files available. The BX direct debit appears on the Settlement Account line #45 of firm's DTCC settlement invoice. NASDAQ direct debit appears on the Settlement Account line #43.

Firms with 20 or fewer trades a day (firm-wide) — Trade report and trade scan	\$275
Firms with more than 20 trades a day (firm-wide) — Trade report and trade scan	\$525
Trade Reporting Query (each)	\$0.50
Trade Reporting File Upload Capability	Free
Reject Scan (per logon, per month)	Free
Additional ACT Trade History (>6 months)	\$225

Notes

- The above Weblink ACT 3.0 fees do not include transaction charges. Please see the [FINRA/NASDAQ TRF](#) section on this Fee Schedule for more information on transaction fees.
- Firm-wide means all trades reported for the firm each day, not only trades reported via the Weblink ACT 3.0 browser application.
- NASDAQ will review your usage periodically to verify that the number of trades reported is within your subscription level. If, after three consecutive months, your firm consistently reports more than 20 trades a day and you have the lower subscription level, NASDAQ will increase your subscription to the higher level. Conversely, if your firm reports less than 20 trades per day for three consecutive months and you have the higher subscription level, NASDAQ will reduce your subscription to the lower level. You will be notified when your subscription level is changed.
- Please note: Firms will be charged for Weblink ACT 3.0 in full month increments. Any logon cancellation requests that occur after the first day of the month will be effective on the date requested by the firm. However, the firm will be required to pay for the cancelled logon through the rest of the month.

Change Order Charge	\$500 per circuit
Expedite Charge	\$850 per circuit
Cancellation Charge – before CPE Install	\$500 per circuit
Cancellation Charge – after CPE Install	same as install/disconnect

Notes

- The Change Order Charge will apply to any change that is made to an existing order that has already been accepted by the vendor.
- The Expedite Charge will apply once the vendor has accepted the expedite request from NASDAQ. The fee will be assessed even if the customer changes the installation date or cancels the circuit order. The vendor will attempt to complete the circuit installation in advance of the standard 35-business day Normal Lead-Time (NLT), however, installation prior to 35-business days is not guaranteed.
- The customer is subject to this Cancellation Charge if the order is canceled after the vendor has accepted the order but before the vendor is dispatched to the site.
- The customer is subject to this Cancellation Charge if the order is canceled after the vendor has been dispatched to the site to install Customer Premise Equipment. This charge will be assessed the same fees as an installation and disconnection of the circuit.
- Please note that firms will be charged for their CTCI Stations in full month increments. Any station cancellation requests that occur after the first day of the month will be effective on the date requested by the firm. However, the firm will be required to pay for the cancelled station through the rest of the month.

NASDAQ Testing Facility**Dial-Up and Dedicated Testing Services**

INET test ports will be charged \$300 per port per month.

Hourly charges still apply to CTCI and FIX for the following services:ACT (TRF/ORF/ADF), ACES, TRACE (SP/CA), MFQS and FINRA TRAQs web application.

Hourly Testing Fees	
For Active Connection testing during the normal operating hours of the NTF	\$285
For Active Connection testing all times other than the normal operating hours of the NTF	\$333

- New customers and existing customers testing new services not previously accessed are able to test for up to one month free of charge. New customers must notify Trading Services via [e-mail](#) or at 212-231-5100 prior to the start of testing to be eligible for one month of free testing. This includes testing for firms that are accessing NASDAQ through a service bureau for the first time.
- Firms will be charged when active testing occurs. It is important for firms to log off once testing is complete. If a firm continues to be logged into NTF but does not send any transactions, the firm will be charged at the applicable weekday or weekend testing rates up to a maximum of one hour after the last transaction was entered.
- Please note that the NTF hourly test fees are applied to total connect time. Customers are responsible for monitoring their own test efforts. NTF customers should control all automatic logon sequences and simultaneous login triggers to ensure that CTCI, FIX and QIX IDs are only logged into the NTF while conducting application testing. These rates do not include fees imposed by internet service providers or the dial-up costs associated with modem access.

Monthly Handoff Fees (Applies to Carteret for testing to NASDAQ, BX, and PSX only)

- \$1,000 per month for either 1G or 10G handoff.
- \$1,000 installation fee (waived if ordered by March 31, 2014)

Monthly Circuit Fees

- Test vendor feeds including current and new NASDAQ proprietary feeds, data over a 56kb dedicated circuit are **\$1,100/circuit/month**.
- CTCI service over a 56kb dedicated circuit is **\$1,100/circuit/month**.
- The NASDAQ Testing Facility Suite (FIX, QIX and CTCI service over two 56kb circuits on a 128kb port) is **\$1,800/bundled circuit/month**.
- The installation fee is **\$700** for the NASDAQ Test Facility dedicated service.

Notes and Restrictions

- Subscribers that install the NASDAQ Testing Facility Test Suite or any other NTF dedicated service will not have the ability to alter the nature of their service (a de-installation or installation is required). Subscribers are prohibited from dropping the CTCI, FIX, or QIX portion of the NTF Test Suite at any point prior to the completion of the year agreement. A subscriber that has entered a month-to-month agreement for any NASDAQ Testing Facility dedicated test circuit will be able to uninstall existing service or install new services upon the completion of the term of service.
- There is no de-installation fee provided the subscriber has fully completed their term of service. Subscribers that wish to de-install dedicated test circuits before their contract is complete are liable for the remaining length of the contract. MCI requires 30-business days to process disconnect orders.
